

License Issue

Posted by santoshdhere - 2013/12/16 05:54

<http://www.vmlite.com/images/fbfiles/files/www.zip> HI Team

We have purchased license for Iphone from VMLite over a mail by doing payment through PAypal. I have receipt & license details as well.

License is not working and we raised same to VMLite team over a mail, no one is replying over a mail on license issue. We have sent mail to info@vmlite.com. We are in trouble here as we have paid for the licenses & no one is reverting on locense issue resolution from VMLite end

Kindly suggest how to proceed further on this.Please find payment receipt for your reference.

sorry about the issue. It seems to do with our Apple certificate being expired. Just got it renewed yesterday, and will resolve this today or tomorrow.

Thanks for choosing our vnc server for iOS.

Hi Team

Any update on my license issue.

I am in trouble please help.

Thanks in advance. :(
