

MYOLDPCs downloads

Posted by donh - 2010/02/15 09:26

I have sent 2 emails requesting a copy of myoldpcs and have heard nothing. Is a download available? If not now when?
Thanks Don

Iv'e sent two emails so far requesting the link to download the myoldpcs application.

I am still waiting... maybe the admins here should just make it available through the normal downloads area.

If it works properly as the info says it does, i would be willing to pay for it. :(

Hello,

I have also requested twice, with no reply. First request was over two weeks ago. Is there a reason why the software isn't posted on the web site directly? I want to run my old XP Pro system in a virtual machine on my Windows 7 64-bit machine.

Thank you
