

VMLite: Never Starts/Crashes -- Galaxy S4; CyanogenMod 11.0; Android 4.4.2; SGH-M919

Posted by kerlin - 2014/05/29 12:00

Rooted. VMLite given SU permissions. I click to start the server and it never starts.

I tried the following without success: SOLVED - Unable to start Server - Galaxy S4 Sprint Android 4.4.2
