

"FATAL:int18 BOOT FAILURE" When i start VMLite Xp Mode

Posted by nadinkrah - 2010/05/08 13:28

when i try to run xp mode 1 on vm lite this happens
"FATAL:int18 BOOT FAILURE"

=====

open VMLite Workstation, select the vm from left tree view, on the right side, it will show the settings.

Click Storage node to attach a hard disk.
