

License purchase via the site/PayPal , no license received

Posted by freitasjca - 2019/01/26 00:46

I bought a VMLite VNC Server for Android (1-device license) on 7th January 2019, but I have not received the activation key yet.

I have sent several emails to info@vmlite.com, and got no response whatsoever.

Can you help me?
