

vBoot 2.0 from external USB harddrive

Posted by lammsb03 - 2011/12/22 06:13

Is there support for booting vboot and loading vmdk files installed to a usb harddrive yet?

=====

vboot support loading from usb..BUT

But it have to be supported in the Windows OS too.

Go check on reboot.pro site for more information about windows usb boot.
