

A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 02:04

I am Ibaraki.

A screen displayed by a PC is unjust.

Please watch an attached file.

The right: The smartphone which "VMLite VNC Server" starts

The left: PC of an unjust screen

Why?

-PC-

OS :windows7 professional

Software:VMLite Android App Controller(ver1.0.0)

TightVNC Viewer(ver2.5.2)

-Smartphone-

Software:VMLite VNC Server(ver1.0.0)

-Others-

A PC and the smartphone are connected with a USB cable

please help!

This is caused by some scan line miscalculations. we are fixing this issue.

Please send email to info at vmlite dot com, we have test version.

What is your android version?

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 06:21

Thank you for an answer.

I want "test version".

Where should I send an email to?
Teach email address.

android version is "2.3.3". :laugh:

Hello,I am Ibaraki.

Thank you.

It was displayed.

However, a screen is red generally.

Please watch an attached file.(problem2.jpg)

Cannot you be improved?

working on it, there is a color format bug.

=====

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 17:22

Is it the problem of the myPC?
Is it the problem of the smartphone?
Is it the problem of the VMLite VNC Server?

=====

Re: A screen displayed by a PC is unjust.

Posted by huisinro - 2012/08/15 17:33

is a bug from our end. Don't worry, it will work soon.

=====

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 19:12

Can you do it in another several hours?

=====

Re: A screen displayed by a PC is unjust.

Posted by huisinro - 2012/08/15 19:34

yes, should be ready in a few hours. Mostly working, need to test on ICS and Jelly Beans.

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 19:48

OK.
Thank you.
I wait.

=====

Posted by huisinro - 2012/08/15 20:23

just sent you a new build via email

=====

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 21:07

Perfectly!
The red color disappeared and the color of the screen of a smart phone was finely displayed on PC.
Thank you very much!

Re: A screen displayed by a PC is unjust.

Posted by huisinro - 2012/08/15 21:23

That's great. Thanks for debugging.

If you like our app, I'd appreciate if you can rate it in google play.

Over last few days, our app are installed over 10 different types of devices, and we found a few bugs.

A new version will be published to google store next couple of days.

Re: A screen displayed by a PC is unjust.

Posted by ibarakinoriaki - 2012/08/15 21:50

It registered.

https://play.google.com/store/apps/details?id=com.vmlite.vncserver&feature=search_result&hl=en

Is it visible?

=====

Re: A screen displayed by a PC is unjust.

Posted by huisinro - 2012/08/15 22:25

Thanks.

the comment was visible once, then disappeared, kind of weird.
